HERE FROM AFRICA

REV. CUNNINGHAM, A MISSIONARY, ATTENDING CONFERENCE.

EXHIBITS MANY CURIOS

Address at Presbyterian Church Was Full of Many Interesting Incidents.

Rev. Dr. James S. Cunningham, who for twelve years was a missionary on the west coast of Africa, is in Maryville to attend the united missionary campaign conference, and gave an interesting address on Monday evening at the First Presbyterian church on the people in that country. Rev. Cunningham returned from Africa last October, and his home is in Oregon, Mo. He will go back to Africa within the next few months.

Rev. Cunningham has been located at Liberville, Congo, and is sent out by the Presbyterian church. He exhibited a number of curios he brought with him from that country and suggested the possibility that women of savage tribes and races have swapped ideas with civilized women to the extent that savage women in Africa now wear wrappers and civilized women in some places wear jewelry around their necks and paint on their faces. He illustrated his talk with a portion of a skull to show the peculiar superstition of the African in his original home, and Rev. Cunningham's talk bristled with information and with proof of the great good being done in the mission fields.

The skull exhibited by Dr. Cunningham was a cross-section with the lower portion trimmed away, and the speaker told how this upper part was worshipped by the natives. One of the first things he did was to explode the superstition that to lay a hand on one of these skulls meant instant death, and he picked up one of these and held in out in sight of a large number of natives to show them nothing would happen to him.

In substituting Christianity for the skull-worship and various other savage customs, the work was so successful that when his first sermon was preached to 500 natives, his last was preached to 4,462, and a church was established, a church that is self-supporting and has 3,000 members. Another church established by Dr. Cunningham, and supervised by him, started with 45 members and now has 5,000.

The change in garb brought out by Christian teaching was shown by the fact that whereas, in the first audience of 500 the women wore only buttles and brass collars and the men wore scarcely anything; in the last audience the women and children wore wrappers and the men wore shirts.

One of the customs he found when he first went to Africa was a peculiar one. As stated above the feminine attire consisted principally of a brass collar. This was of about the weight of four horseshoes, and once clamped on was never removed. On state occasions, however, and by way of extraordinary attire, the women rubbed together two pieces of African red wood and powdered their bodies with the red dust it formed. To leave off the red powder was a serious violation of etiquette, and was accompanied by serious results.

Received Good Prices for Horses

In a letter received Tuesday by Geo. B. Baker, of the Real Estate bank, from Horace Jones, of Parnell, who is at present in Jaurez, Mex., where his son, Ben Jones is with a number of race horses, writes that his son won more races at that track than any other string of colts there. Ben Jones sold recently three yearling colts for $2,150 and was offered $1,000 for a last spring colt.

OPENING OF SECOND SEMESTER

Of the High School on Monday—A Good Enrollment in All of the Schools.

The second semester of the high school term of 1913-14 opened Monday. The daily program had been previously prepared by the faculty and printed copies were distributed among the pupils. These being carefully arranged, a great deal of the usual trouble concerning conflicting studies was eliminated.

Although a number of the regular pupils were absent on account of sickness, the total registration was 191. Of this number 26 were new pupils, and as there were 11 in the graduating class of last term, and the highest enrollment during the term was 198, it may safely be estimated that within a few days the enrollment will be about 215.

As is usually true, the freshman class was found to be the largest in the high school, its membership being 61, while that of the sophomore class was 47, of the junior 41 and of the senior 35. Miss Laura Craig, who graduated last term, was found to be the only person taking post-graduate work.

The enrollment at the other schools of the city was as follows: In the grades at the Washington school, 327; at the Jefferson ward school, 96; at the Garfield ward school, 90; at the Franklin ward school, 96, and about 30 at the Douglas (colored) school.

A. W. Merkle of the Merkle-Hines company of Kansas City, which company installed the pumps at the city water plant, was in Maryville Tuesday inspecting the work. The engineer of the board, Hiram Phillips of St. Louis will examine the work before it is approved by the board. The new pump is now working and has a capacity of 700 gallons a minute, which will never be needed except in case of fire. The capacity at present is about 200 gallons a minute.

Mr. Merkle, after visiting the water plant, said that it was one of the best that he had seen in a town of this size, and that it was a plant that would give good service for many years.

DRAINAGE BOARD IN SESSION

Machinery Now at Hopkins and Work Will Start Soon on the Ditch.

The 102 drainage board was in session Tuesday morning and adopted a resolution to have their $30,000 bond issue registered as needed. Of this amount $5,000 will be ready by the time the work will start, March 1. The bond issue was sold some time ago to the Thompson Securities company of St. Louis. The members of the board in attendance were Anderson Craig, J. C. Pistole, Hugh McClurg and W. E. Hinton.

The dredge boat and all the machinery is now at Hopkins now ready to start the work on March 1. J. D. Whitney, representing D. C. Stephens & Co. of Buffalo, N. Y., will superintend the work of the ditch. It took seven cars to ship the boat and all necessary equipments to Hopkins, and another car was sent containing coal. The Hopkins agent reported that $800 was spent for freight alone. It will take a week or so yet to put together the dredge boat and get it in first class condition.

The work on the 102 ditch will start on the Ingram land at the Iowa state line, and nineteen miles of the river will be straightened. Seven bridges will have to be taken out along the route of the ditch and the Wabash trestle, east of Maryville, will also be taken out when the boat arrives at that point.

A large number of men are now at work putting the boat together, and also other machinery, preparatory to starting the work. The contractors, D. C. Stephens & Co., say they can finish the work in eight months.

MUST TRIM HEDGE

A NUMBER HAVE BEEN REPORTED WHO FAILED TO DO SO.

REQUIRED BY THE LAW

Are a Menace to the Roads as Well as to Owner—A Heavy Penalty for Failure.

Quite a large number of hedges have been reported to the county highway engineer as not having been trimmed within a year, as required by law, and these hedges are a great hindrance to the best condition of the highways along which they are situated.

The law passed by the last legislature makes it the duty of road overseers and prosecuting attorneys to see that such hedges are trimmed to not over five feet each year when the condition is properly reported to them. The hedges are not only a menace to the roads but most always to the owner as well, and he is not the loser by having to cut them down, or better if he should have them grubbed out.

This hedge law is intended to give us relief from the extremely bad condition which exists, and all should be treated alike. The law provides a heavy penalty for failure to cut hedges as specified, but there is no desire to prosecute. The object is to have the hedge cut without delay, and hedges must be cut.

MRS. BENNETT DIED.

After a Ten Days' Illness Young Maryville Mother Gives Up Life—Funeral Not Arranged.

Mrs. Chester Bennett passed away at 1 o'clock Tuesday afternoon after a ten-days' illness of uremic poisoning. She made a brave effort to live, but had been unconscious nearly all the time for several days. She regained consciousness a few moments before her death and recognized the family, who had gathered at her bedside.

Mrs. Bennett is survived by her husband and daughter, Virginia Katherine, nearly one year old. Also her parents, Mr. and Mrs. Harry Shipps, two sisters, Blanche and Marie, and a brother, Homer Shipps.

The funeral arrangements have not been made.

The Fete of Months.

Will be pulled off at the Borrusch building, on West Third street, Saturday afternoon and evening by the City Federation of Women's Clubs and the help of Maryville. It goes something like this.

Each month of the year will be represented by a booth dressed in a most fitting garb, where delicious refreshments in keeping with the month will be served. Just one request is made, that you visit your birthday booth and be served to and pay for whatever "fate" has decreed, for the amount must correspond to the date of the month on which your birthday falls.

For instance, if daddy's birthday falls on November 1st, he is served waffles and syrup, costing him only a penny for being so lucky as to the date of his birth. Mother will enjoy the doughnuts and coffee at the January booth at, say 13c, her birthday date. After brother eats "pie like mother makes" at the December booth, at his birthday price, he may have all he can eat for ——. But poor sister, whose birthday falls on July 31st, will eat—only knows what, but then she is very fond of that, for such diet keeps her in good style. The sweethearts and kiddies may have all the candy they want at another booth.

In fact, every one may have all they can eat at any booth for—well, what do you think of it? What will it be to rest an hour or so on one of those good seats in the court house yard next summer when the mercury stands at 103? That is what this is all about; to raise money to buy the seats. Come in and enjoy the best off all kinds, shapes and sizes in any amount you want from a birthday price to a full supper.

HOSHOR WON CASE

JURY DECIDED AGAINST BORCHERS IN DAMAGE CASE.

HERYFORDS SETTLED

Their Case This Afternoon, When Brother Agreed Not to Practice in Union Township.

The jury in the case of Pearl Borchers, by next friend, Grant Borchers, vs. John Hoshor, for $10,000 damages, brought in a verdict this morning after being out about ten minutes, for the defendant, Hoshor. The jury only took one ballot and it was unanimous for Hoshor. The Borchers case was one of the sensational cases at this term of court, many things being alleged in the petition.

The injunction case and also damage case for $500 of Dr. J. R. Heryford vs. Dr. W. B. Heryford was compromised soon after dinner this afternoon. The term of the settlement was that the defendant agrees not to practice his profession in Union township.

The jury had already been summoned and were ready to try the case when the compromise was reached. It was a case of brother against brother, and the petition alleges that on December 19, 1910, Dr. W. B. Heryford sold to Dr. J. R. Heryford his residence property and office and good will of his business as a practicing physician in Pickering and agreed not to practice in that town or vicinity as long as the plaintiff continues in the practice.

Roy Mays and Charles Still of this city were arrested today, having been indicted by the grand jury for gaming. They will appear in circuit court for trial on Friday.

A number appeared in circuit court late Monday afternoon and today, having been indicted by the grand jury, which was in session last week. Nearly all of them were indicted for gaming. Those appearing on gaming charges and giving bail of $200 in each case, and whose cases are set for trial on Friday are as follows:

Henry Markwell, Robert Wilson, Frank Jobe, Jack Hager, Ed Lane, Steve Viles, Roland Rruett, five counts; Ed Adkins, Frank Crowdes, James Mulholland, Roy Reece, three counts.

Jesse Colter, four counts; Aiden Owens; C. E. Dilley; Dale Gates, five counts; Ira Gates, seven counts; Ike Weddle, Jr., seven counts; Mark Adkins, five counts; Clarence Rhoades, five counts.

Wm. McAtee wilfully violated his oath, also appeared in court and his case was set for Friday.

BANTA WAS PAROLED.

Mayor Robey Told Him That It Would Be Necessary for Him to Stay Out of Town One Year.

Walter Banta, who has been in the city jail for the past few months, and had several more weeks to serve, was paroled Monday by Mayor Robey to his father, M. T. Banta, at Shenandoah, Ia. The term of the parole is that the young boy is to stay out of Maryville for one year. His father promises to send the boy to school at Shenandoah.

Poland-China Shipments.

E. E. Carver has sent hogs to the following men and firms in the last few days: J. H. Beattie, of Savannah, Mo.; Ott Bros., Union Star, Mo.; Lomax and Hurst, Leona, Kan.; and E. C. Hellecksen, New England, N. Dak. He also shipped a fine bull to Judge Bonniwell, at Hutchison, Minn., which he will enter in the show ring next season. Mr. Bonniwell bought three bulls here last spring and took them to several of the shows and captured first on all classes and championship of the shows with them. This speaks well for our Nodaway county animals.—Guilford Times.

Mrs. Bert Rowley went to St. Joseph Tuesday morning to visit with relatives until Wednesday noon.

Miss Marvel Brown has accepted a position with the First National bank of this city as stenographer. She was formerly a student at the Maryville Business college.

SCENE, ACT TWO FROM THE MUSICAL DRAMA "FRECKLES"

Communication

Whereas, the long-haired statesman of Mt. Ayr has attempted to answer me in regard to questions asked him, I don't consider he has answered them correctly.

In the first place, he gave the old members of the board to understand that he, himself, Mr. Sherlock and Mr. McGettigan could run the business, and that they did not need us.

Then it seems he tried to bribe me to get me to vote for the illegal assessment by telling me, let us vote it and we will pay your salaries, which he had been refusing to pay. If it was legal to pay the salaries then, why is it not legal to pay my salary now. He accepted my resignation but refused to allow my bill when it was motioned by Hull and seconded by Wray. He would not put it to the house. He stated that the reason he refused to put the motion was because it was in regard to salary. Then he says it was because of a call for a meeting to adopt a new constitution and by-laws, which could not be legal. There is no truth to the statement that there was talk of publishing us before he went into office. The seven members of the board at that time, six out of the seven that was standing for that money could have borrowed that amount on his own recognition. I might have borrowed that amount if I could have given Jos. Jackson, Sr., as surety. My fight with the Rev. Statesman was to try to get him to comply with the constitution and by-laws.

He said he put in that N. E. cable according to instructions. I disputed him. We first should have notified the people interested, gave them their choice as to the new wire or cable, which was not done. I tried to tell the Statesman, but he would not pay any attention. After the cable was in he wanted the people interested to pay for it, which would have been correct. He says the board all voted for it, and afterward I changed, when I did not vote to build it. As president of that body he should not have allowed an ignoramus of a member of the board to change his work. He made the statement that our constitution and by-laws did not amount to anything and we could not go by them.

Our credit last March when the Statesman charged no one, I herewith give a letter I received which will explain itself:

January 2, 1914.—Mr. Wm. Mozingo, President Peoples Telephone Union, Maryville, Mo.: Dear Sir—Enclosed you will find a statement of the account of the Peoples Telephone Union, of which you are president.

Owing to the delinquent state of this account I feel as though you are not fully conversant with the conditions and the necessity of making a settlement of it at this time.

We have granted extension after extension and no definite assurances are given as to when we will receive a settlement, and under these conditions we feel that we have fulfilled every obligation that is consistent with good business, and the time is now at hand when we should have settlement without further delay.

As you have no defense or offset to the account, we have attributed your failure to settle only to your unwillingness or inability to pay. Under these circumstances we feel that unless you make a remittance by January 8th your account should be referred to the Electrical Credit association of Chicago for the information of its members who may also be interested.

We do not wish to take this action without notifying you in advance, and to assure this letter reaching you we are sending it by registered mail.

Yours truly,
C. E. VANDEL,
Assistant Treasurer.

If the Rev. Statesman will examine the records of the Peoples Telephone Union, on page 50 he can find, March 11, 1911, where the board's salary was voted.

Wm. Jobe never served as a member of the board since the adoption of the present constitution and by-laws, if I remember right. As to the resignation of the old members of the board a year ago, he said we were not any more responsible than any one else. Now he says resigning does not release us from the responsibility of the debt increased while we were on the board. As to the $600 in the treasury, that was the statement given out at the time of my resignation. I also claimed the assessment illegal. He said we would run a bluff on them and if it worked it would be all right. The Hanamo seems to be his hobby.

He told me at different times that he knew it could be run cheaper. You have always opposed putting in phones in town, why did you put in a man who would get us more phones?

Now, Mr. Statesman, look up the records on page 50 and apologize, and that is not the only one you should make on your assertions.

Respectfully,
J. V. LYNCH.

RAVENWOOD.

The second quarterly conference of the M. E. church, South, was held here Saturday and Sunday by the new presiding elder, Rev. H. C. McPherson. The congregation on Sunday was not very large, owing to the unfavorable weather, but those present signified their appreciation of the services by close attention.

We are certainly having a very changeable winter so far, but none of the changes reach a very low temperature. No ice has been harvested yet, except by the wheelbarrow load.

A car load of Jersey cows and heifers was sold here Saturday evening at auction. They were from Kentucky. They brought all they were worth, owing to the shortness of feed.

Ravenwood will make some improvements this year. The I. O. O. F. will build a new hall as soon as the building season opens. I understand it will be 44x80, two stories high. That will hold a lot of them. Some other improvements will be made.

Ravenwood has had a fine trade this season. Our farmers are selling many hogs at a high price and the money is being kept on the move. The predicted panic has not reached here yet.

It sells without any trouble at all. It needs no guarantee." This is true, because Dr. King's New Discovery will relieve the most obstinate of coughs and colds. Lung troubles quickly helped by its use. You should keep a bottle in the house at all times for all the members of the family. 50c and $1.00. All druggists or by mail. H. E. Freckles

In the abstract, strong stories do not make strong plays, but with "Freckles" dramatized from Gene Stratton—Porter's novel of that name, which will be the attraction at the Empire theatre, Thursday, January 29, there is an exception; it has made a stronger play than story, and it is just as gripping to the theatre-goer as it was to the novel reader. It is a play for all classes. "Freckles" with his ready wit, his sweet songs, gives to the play a variety of incidents which is otherwise strangely interesting and strong romantically.

The other five, together with twenty-three grandchildren and eighteen great-grandchildren, are left to mourn her departure. Four of her sons live in this vicinity, and Thomas H. lives in the state of Washington. Mrs. Grimit accepted Christ about forty years ago at Quitman, Mo. FEDERATION OF LABOR UNDER FIRE

Moyer Says if Copper Strike is Lost Council is to Blame.

ASKS GOMPERS TO EXPLAIN.

United Mine Workers' Convention Requests Presence of Head of Federation—Moyer Suggests Coal and Metal Organizations Be Merged.

Indianapolis, Jan. 27.—Charles H. Moyer, president of the Western Federation of Miners, appeared before the convention of the United Mine Workers of America and charged that "if the strike of the copper miners in Michigan is lost it will be due directly to the inactivity of the executive council of the American Federation of Labor."

President Moyer declared that two appeals had been made to the American Federation of Labor executive council at Washington for aid for the copper strikers and that so far no action had been taken. In speaking of the assault on himself and his alleged deportation from the strike zone, he said the treatment accorded him was not worse, and in many instances much less, than that dealt out to hundreds of men and women in the rank and file of the strikers of Michigan and Colorado.

"The only difference between the treatment accorded me and the rank and file," Moyer continued, "is that the attack on me, as a representative of the Western Federation was given more publicity and caused a howl of indignation to rise throughout the land."

Colorado Strike Discussed.

In speaking of the Colorado strike, Mr. Moyer said:

"I didn't believe that the laboring people of the state would ever make it possible for another Peabody to sit in the governor's chair. But they did. The present strike is not yet so bad as the strike of 1903-4, but I believe Governor Ammons will go as far, or farther if possible, than the despicable Peabody."

Mr. Hoyer said he was in favor of the amalgamation of his organization with the coal miners. He suggested that a committee of the international officers be empowered to work for a plan for the merging of the two unions.

President White, in the name of the convention, assured Mr. Moyer of the continued moral and financial support of the coal miners, and the convention voted unanimously to request Samuel Gompers, president of the federation, to appear before the convention and explain the attitude of the council.
